

Stakeholder Analysis

Stakeholder Identification

Stakeholder	Description
Students	Primary users seeking jobs, internships, and placement opportunities.
Placement Officers	Manage placement activities, job postings, and student eligibility.
Recruiters/Companies	Organizations hiring students through the platform.
Faculty Mentors	Faculty members who guide students in placement preparation.
College Administration	Decision-makers interested in placement performance and analytics.
Alumni (Optional)	Former students who may provide mentorship, referrals, and networking opportunities.

Stakeholder Analysis Table

Stakeholder	Responsibilities	Goals	Challenges
Students	Create profiles, upload resumes, apply for jobs	Secure employment opportunities and improve career prospects	Finding suitable jobs, resume preparation, tracking applications
Placement Officers	Manage placement drives and student records	Improve placement rates and automate processes	Manual screening and administrative workload
Recruiters	Post jobs and evaluate candidates	Hire qualified candidates efficiently	Filtering large numbers of applicants
Faculty Mentors	Monitor and guide students	Improve student readiness and employability	Limited visibility into student progress
College Administration	Review placement statistics and performance	Enhance institutional reputation and placement outcomes	Lack of centralized reporting and analytics
Alumni	Mentor students and provide referrals	Support student career growth	Maintaining engagement with students
